## **ANNEXURE: SCHEDULE OF CLINICAL POSTINGS**

| S. No. | From –To            | Number of weeks | Batch A   | Batch B                    | Batch C                    |
|--------|---------------------|-----------------|---|----------------------------|----------------------------|
| 1      | 06/01/25 - 19/01/25 | 02              | Orthopaedics  | Dermatology                | Psychiatry                 |
| 2      | 20/01/25 - 02/02/25 | 02              | Psychiatry  | Orthopaedics               | Dermatology                |
| 3      | 03/02/25 - 16/02/25 | 02              | Dermatology   | Psychiatry                 | Orthopaedics               |
| 4      | 17/02/25 – 16/03/25 | 04              | Paediatrics   | Surgery                    | Ophthalmology              |
| 5      | 17/03/25 – 13/04/25 | 04              | Surgery   | Paediatrics                | ENT                        |
| 6      | 14/04/25 – 11/05/25 | 04              | Ophthalmology   | ENT                        | Surgery                    |
| 7      | 12/05/25 – 08/06/25 | 04              | ENT   | Ophthalmology              | Paediatrics                |
| 8      | 23/06/25 - 28/06/25 | 01              | 1 <sup>st</sup> IA Exam- Medicine, Surgery (Incl Ortho), Obs & Gynae, Paed, Ophtha, ENT (10AM-1 PM) |                            |                            |
| 9      | 30/06/25 - 06/07/25 | 01              | Radio-diagnosis   | Respiratory Medicine       | Anesthesiology             |
| 10     | 07/07/25 - 13/07/25 | 01              | Anesthesiology  | Radio-diagnosis            | Respiratory Medicine       |
| 11     | 14/07/25 - 20/07/25 | 01              | Respiratory Medicine  | Anesthesiology             | Radio-diagnosis            |
| 12     | 21/07/25 - 17/08/25 | 04              | Community Medicine  | General Medicine           | Obstetrics and Gynaecology |
| 13     | 18/08/25 - 14/09/25 | 04              | Obstetrics and Gynaecology  | Community Medicine         | General Medicine           |
| 14     | 15/09/25- 12/10/25  | 04              | General Medicine  | Obstetrics and Gynaecology | Community Medicine         |
| 15     | 13/10/25 - 18/10/25 | 01              | 2 <sup>nd</sup> IA Exam- Medicine, Surgery (Incl Ortho), Obs & Gynae, Paed, Ophtha, ENT (10AM-1 PM) |                            |                            |

**Note:** Every Saturday From 28<sup>th</sup> June 2025 to 11<sup>th</sup> October 2025: Family Adoption Program field visits would be held from 10 AM to 1 PM. However, on remaining days of Saturday, 10 AM to 1 PM class would be held of the subject as per clinical posting schedule.

## **ANNEXURE II: Competencies for Clinical Postings**

**GENERAL MEDICINE:** Total duration of posting: 5 weeks; Working Days: 30 (Mon to Saturday), Working hours: 90 (3 hr/day)

| DAY      | COMPETENCY  | TEACHING /LEARNING METHOD |
|----------|---|---------------------------|
| D-1, 19  | IM1.10 Elicit document and present an appropriate history that will establish the diagnosis, cause and severity of heart failure including: presenting complaints, precipitating and exacerbating factors, risk factors exercise tolerance, changes in sleep patterns, features suggestive of infective endocarditis  | Bedside clinic            |
| D-2, 20  | IM1.11 Perform and demonstrate a systematic examination based on the history that will help establish the diagnosis and estimate its severity including: measurement of pulse, blood pressure and respiratory rate, jugular venous forms and pulses, peripheral pulses, S SH Y Bedside clinic, DOAP session Skill assessment rate, jugular venous forms and pulses, peripheral pulses, conjunctiva and fundus, lung, cardiac examination including palpation and auscultation with identification of heart sounds and murmurs, abdominal distension and splenic palpation | Bedside clinic            |
| D-3, 21  | IM1.12 Demonstrate peripheral pulse, volume, character, quality and variation in various causes of heart failure<br>IM1.13 Measure the blood pressure accurately, recognise and discuss alterations in blood pressure in valvular heart disease and other causes of heart failure and cardiac tamponade<br>IM1.14 Demonstrate and measure jugular venous distension   | Bedside clinic            |
| D-4, 22  | IM1.15 Identify and describe the timing, pitch quality conduction and significance of precordial murmurs and their variations   | Bedside clinic            |
| D-5, 23  | IM1.16 Generate a differential diagnosis based on the clinical presentation and prioritise it based on the most likely diagnosis for heart failure  | Bedside clinic            |
| D-6, 24  | IM1.17 Order and interpret diagnostic testing based on the clinical diagnosis including 12 lead ECG, Chest radiograph, blood cultures for heart failure   | Bedside clinic            |
| D-7, 25  | IM1.18 Perform and interpret a 12 lead ECG for heart failure  | Bedside clinic            |
| D-8, 26  | IM1.26 Develop document and present a management plan for patients with heart failure based on type of failure, underlying aetiology<br>IM1.27 Describe and discuss the role of penicillin prophylaxis in the prevention of rheumatic heart disease   | Bedside clinic            |
| D-9, 27  | IM1.30 Administer an intramuscular injection with an appropriate explanation to the patient   | Bedside clinic            |
| D-10, 28 | IM2.6 Elicit document and present an appropriate history that includes onset evolution, presentation risk factors, family history, comorbid conditions, complications, medication, history of atherosclerosis, IHD and coronary syndromes   | Bedside clinic            |
| D-11, 29 | IM2.7 Perform, demonstrate and document a physical examination including a vascular and cardiac examination that is appropriate for the clinical presentation for acute MI/IHD  | Bedside clinic            |

|      |   |                |
|------|---|----------------|
| D-12 | IM2.8 Generate document and present a differential diagnosis based on the clinical presentation and prioritise based on “cannot miss”, most likely diagnosis and severity for acute MI/IHD<br>IM2.9 Distinguish and differentiate between stable and unstable angina and AMI based on the clinical presentation   | Bedside clinic |
| D-13 | IM 2.10 Order, perform and interpret an ECG for acute MI/IHD  | Bedside clinic |
| D-14 | IM 2.11 Order and interpret a Chest X-ray and markers of acute myocardial infarction IM2.12 Choose and interpret a lipid profile and identify the desirable lipid profile in the clinical context of acute myocardial infarction  | Bedside clinic |
| D-15 | IM3.4 Elicit document and present an appropriate history including the evolution, risk factors including immune status and occupational risk for pneumonia<br>IM3.5 Perform, document and demonstrate a physical examination including general examination and appropriate examination of the lungs that establishes the diagnosis, complications and severity of disease<br>IM3.6 Generate document and present a differential diagnosis based on the clinical features, and prioritise the diagnosis based on the presentation  | Bedside clinic |
| D-16 | IM3.7 Order and interpret diagnostic tests based on the clinical presentation including: CBC, Chest X ray PA view, Mantoux, sputum gram stain, sputum culture and sensitivity, pleural fluid examination and culture, HIV testing and ABG FOR PNEUMONIA<br>M4.9 Elicit document and present a medical history that helps delineate the aetiology of fever that includes the evolution and pattern of fever, associated symptoms, immune status, comorbidities, risk factors, exposure through occupation, travel and environment and medication use for febrile illnesses | Bedside clinic |
| D-17 | IM3.8 Demonstrate in a mannequin and interpret results of an arterial blood gas examination<br>IM3.9 Demonstrate in a mannequin and interpret results of a pleural fluid aspiration IM3.10 Demonstrate the correct technique in a mannequin and interpret results of a blood culture<br>IM3.11 Describe and enumerate the indications for further testing including HRCT, Viral cultures, PCR and specialised testing for pneumonia   | Bedside clinic |
| D-18 | IM3.12 Select, describe and prescribe based on the most likely aetiology, an appropriate empirical antimicrobial based on the pharmacology and antimicrobial spectrum for pneumonia<br>IM3.13 Select, describe and prescribe based on culture and sensitivity appropriate empirical antimicrobial based on the pharmacology and antimicrobial spectrum IM3.14 Perform and interpret a sputum gram stain and AFB   | Bedside clinic |
| D-30 | End of posting clinical assessment (EOP)  |                |

**OBSTETRICS & GYNAECOLOGY:** Total duration of posting: 5 weeks; Working Days: 30 (Mon to Saturday), Working hours: 90 (3 hr/day)

| DAY     | COMPETENCY   | TEACHING LEARNING METHOD |
|---------|--|--------------------------|
| D-1, 18 | OG8.3 Describe, demonstrate, document and perform an obstetrical examination including a general and abdominal examination and clinical monitoring of maternal and fetal well-being. | Bed side clinic, DOAP    |

|          |   |  |
|----------|---|--|
| D-2, 19  | OG8.8 Enumerate the indications and describe the investigations including the use of ultrasound in the initial assessment and monitoring in pregnancy.  | Bed side clinic, DOAP session                        |
| D-3, 20  | OG 8.4 Describe and demonstrate clinical monitoring of maternal and fetal well-being.   | Bedside clinic, DOAP session, Small group discussion |
| D-4, 21  | Describe, demonstrate, document and perform a gynecological examination including a general, abdominal and pelvic examination.  | DOAP session, Bedside clinic                         |
| D-5, 22  | Enumerate the indications and describe the investigations including the use of ultrasound in the initial assessment of a gynecology case  | DOAP session, Bedside clinic                         |
| D-6, 23  | Describe, demonstrate, and document a learner doctor case record  | DOAP session, Bedside clinic                         |
| D-7, 24  | OG 14.1 Enumerate and discuss the diameters of maternal pelvis and fetal skull  | DOAP session   |
| D-8, 25  | OG8.5 Describe and demonstrate pelvic assessment in a model   | DOAP session   |
| D-9, 26  | OG13.5 Observe and document the conduct of a normal vaginal delivery  | DOAP session   |
| D-10, 27 | OG15.2.1 Observe the performance of an episiotomy and demonstrate the correct suturing technique of an episiotomy in a simulated environment.   | DOAP session, Bedside clinic                         |
| D-11, 28 | OG12.2 Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of anemia in pregnancy             | Small group discussion, Bedside clinic               |
| D-12     | OG12.1 Define, classify, and describe the etiology and pathophysiology, early detection, investigations; principles of management of hypertensive disorders of pregnancy and eclampsia, complications of eclampsia                          | Small group discussion, Bedside clinic               |
| D-13     | OG16.3 Describe and discuss causes, clinical features, diagnosis, investigations; monitoring of fetal well-being, including ultrasound and fetal Doppler; principles of management; prevention and counselling in fetal growth restriction  | Small group discussion, Bedside clinic               |
| D-14     | OG12.3 Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, criteria, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of diabetes in pregnancy | Small group discussion, Bedside clinic               |
| D-15     | OG11.1 Describe the etiopathology, clinical features; diagnosis and investigations, complications, principles of management of multiple pregnancies   | Small group discussion, Bedside clinic.              |
| D-16     | OG16.1 Enumerate and discuss causes, prevention, diagnosis, management, appropriate use of blood and blood products in postpartum haemorrhage   | Small group discussion, Bedside clinic               |
| D-17     | OG35.12 Obtain a PAP smear in a simulated environment   | DOAP session   |
| D-29     | End of posting (EOP) clinical assessment  |  |
| D-30     | End of posting (EOP) clinical assessment  |  |

**ENT:** Total duration of posting: 4 weeks; Working Days: 24 (Mon to Saturday), Working hours: 72 (3 hr/day)

| DA Y     | COMPETENCY   | TEACHING LEARNING METHOD                                 |
|----------|--|--|
| 1,<br>19 | EN2.1<br>Elicit document and present an appropriate history in a patient presenting with an ENT complaint.   | Small group discussion, Demonstration (1/2)              |
| 2,<br>20 | EN2.1<br>Elicit document and present an appropriate history in a patient presenting with an ENT complaint.   | Small group discussion, Demonstration (2/2)              |
| 3,<br>21 | EN2.2<br>Demonstrate the correct use of a Head mirror, headlamp and ENT Exam Unit in the examination of the ear, nose and throat.  | DOAP session, Clinic                                     |
| 4,<br>22 | EN2.10<br>Identify, observe and demonstrate the use of common ENT instruments used in outpatient diagnosis and treatment and ENT surgery.  | Small group discussion, Demonstration , Bedside clinic   |
| 5,<br>23 | EN2.3<br>Demonstrate the correct technique of examination of the ear including Otoscopy, correct technique to hold the otoscope, visualize and assess the mobility of the tympanic membrane and interpret and diagrammatically represent the findings. | DOAP session, Bedside clinic. (1/2)                      |
| 6        | EN2.3<br>Demonstrate the correct technique of examination of the ear including Otoscopy, correct technique to hold the otoscope, visualize and assess the mobility of the tympanic membrane and interpret and diagrammatically represent the findings. | DOAP session, Bedside clinic. (2/2)                      |
| 7        | AN40.2<br>Describe & demonstrate the boundaries, contents, relations and functional anatomy of middle ear and auditory tube.   | Practical, Lecture, Small group discussion, DOAP session |
| 8        | EN2.5<br>Demonstrate the correct technique of examination of the nose & paranasal sinuses including the use of nasal speculum & DNE.<br>(Including Case Discussion- DNS/Sinusitis)   | DOAP session, Bedside clinic. (1/2)                      |
| 9        | EN2.5<br>Demonstrate the correct technique of examination of the nose & paranasal sinuses including the use of nasal speculum & DNE.<br>(Including Case Discussion- Allergic Rhinitis/ Polyposis)  | DOAP session, Bedside clinic. (2/2)                      |

|    |  |  |
|----|--|--|
| 10 | AN37.1<br>Describe & demonstrate features of nasal septum & lateral wall of nose, their blood supply and nerve supply.   | Practical, Lecture, Small group discussion, DOAP session |
| 11 | EN2.6<br>Demonstrate the correct technique of examining the oral cavity, oro-pharynx including the use of a tongue depressor.  | DOAP session, Bedside clinic.                            |
| 12 | PE28.1<br>Discuss the etio-pathogenesis, clinical features and management of Naso pharyngitis  | Lecture, Small group discussion                          |
| 13 | PE28.2<br>Discuss the etio-pathogenesis of Pharyngo Tonsillitis  | Lecture, Small group discussion                          |
| 14 | PE28.3<br>Discuss the clinical features and management of Pharyngo Tonsillitis   | Lecture, Small group discussion                          |
| 15 | EN2.7<br>Demonstrate the correct technique of examination of neck including Cervical Lymph nodes, elicitation of laryngeal crepitus and Indirect Laryngoscopy.   | DOAP session, Bedside clinic                             |
| 16 | EN2.4<br>Demonstrate the correct technique of performance and interpret tuning fork tests  | DOAP session, Bedside clinic.                            |
| 17 | EN2.8<br>Demonstrate the correct technique to perform and interpret pure tone audiogram & impedance audiogram.   | DOAP session, Bedside clinic.                            |
| 18 | EN2.11<br>Describe and identify by clinical examination some of the pre- malignant and malignant ENT diseases.<br>(Case Discussion- Oral pre malignant lesions) DE4.2<br>Discuss the role of etiological factors in the formation of precancerous /cancerous lesions | DOAP session, Bedside clinic. (1/2).SGD                  |
| 24 | End of posting clinical assessment (EOP)   |  |

**OPHTHALMOLOGY:** Total duration of posting: 4 weeks; Working Days: 24 (Mon to Saturday), Working hours: 72 (3 hr/day)

| DAY     | COMPETENCY   | TEACHING LEARNING METHOD |
|---------|--|--------------------------|
| D-1, 19 | OP1.3 Demonstrate the steps in performing the visual acuity assessment for distance vision, near vision, colour vision, the pin hole test and the menace and blink reflexes  | DOAP Session ( 1/2)      |
| D-2, 20 | OP1.3 Demonstrate the steps in performing the visual acuity assessment for distance vision, near vision, colour vision, the pin hole test and the menace and blink reflexes  | DOAP Session ( 2/2)      |
| D-3, 21 | OP2.2 Demonstrate the symptoms & clinical signs of conditions enumerated in OP2.1<br>OP2.1 Enumerate the causes, describe and discuss the aetiology, clinical presentations and diagnostic features of common conditions of the lid and adnexa including Hordeolum externum/ internum, blepharitis, preseptal cellulitis, dacryocystitis, hemangioma, dermoid, ptosis, entropion, lid lag, lagophthalmos | DOAP Session             |

|         |  |                                       |
|---------|--|---------------------------------------|
| D-4, 22 | OP2.2 Demonstrate the symptoms & clinical signs of conditions enumerated in OP2.1<br>OP2.1 Enumerate the causes, describe and discuss the aetiology, clinical presentations and diagnostic features of common conditions of the lid and adnexa including Hordeolum externum/ internum, blepharitis, preseptal cellulitis, dacryocystitis, hemangioma, dermoid, ptosis, entropion, lid lag, lagophthalmos | DOAP Session                          |
| D-5, 23 | OP3.1 Elicit document and present an appropriate history in a patient presenting with a “red eye” including congestion, discharge, pain  | DOAP Session, Bedside clinic          |
| D-6     | OP3.2 Demonstrate document and present the correct method of examination of a “red eye” including vision assessment, corneal lustre, pupil abnormality, ciliary tenderness   | Small group discussion, DOAP SESSION  |
| D-7     | OP3.8 Demonstrate correct technique of removal of foreign body from the eye in a simulated environment   | DOAP Sesssion                         |
| D-8     | OP3.9 Demonstrate the correct technique of instillation of eye drops in a simulated environment  | DOAP Sesssion                         |
| D-9     | OP4.8 Demonstrate technique of removal of foreign body in the cornea in a simulated environment  | DOAP Sesssion                         |
| D10     | AN41.1 Describe & demonstrate parts and layers of eyeball  | DOAP Sesssion, Small group discussion |
| D-11    | OP4.10 Counsel patients and family about eye donation in a simulated environment   | DOAP Sesssion                         |
| D-12    | OP6.6 Identify and demonstrate the clinical features and distinguish and diagnose common clinical conditions affecting the anterior chamber  | Bed side clinic, DOAP Session         |
| D-13    | OP6.10 Counsel patients with conditions of the iris and anterior chamber about their diagnosis, therapy and prognosis in an empathetic manner in a simulated environment   | DOAP Session                          |
| D-14    | OP7.3 Demonstrate the correct technique of ocular examination in a patient with a cataract   | DOAP Session                          |
| D-15    | OP7.5 To participate in the team for cataract surgery  | Small group discussion, DOAP Session  |
| D-16    | OP7.6 Administer informed consent and counsel patients for cataract surgery in a simulated environment   | DOAP Session                          |
| D-17    | OP8.3 Demonstrate the correct technique of a fundus examination and describe and distinguish the fundoscopic features in a normal condition and in conditions causing an abnormal retinal exam   | Small group discussion                |
| D-18    | OP9.1 Demonstrate the correct technique to examine extra ocular movements (Unocular & Binocular).<br>OP3.2 Demonstrate document and present the correct method of examination of a “red eye” including vision assessment, corneal lustre, pupil abnormality, ciliary tenderness  | DOAP Session                          |
| D-24    | End of posting clinical assessment (EOP)   |                                       |

**GENERAL SURGERY:** Total duration of posting: 4 weeks; Working Days: 24 (Mon to Saturday), Working hours: 72 (3 hr/day)

| DAY | COMPETENCY | TEACHING LEARNING METHOD |
|-----|------------|--------------------------|
|-----|------------|--------------------------|

|         |  |  |
|---------|--|--|
| D-1, 19 | SU5.3 Differentiate the various types of wounds, plan and observe management of wounds   | Small group discussion, Bedside teaching |
| D-2, 20 | SU9.1 Choose appropriate biochemical, microbiological, pathological, imaging investigations and interpret the investigative data in a surgical patient   | Small group discussion                   |
| D-3, 21 | SU10.3 Observe common surgical procedures and assist in minor surgical procedures; Observe emergency lifesaving surgical procedures.   | DOAP session                             |
| D-4, 22 | SU10.3 Observe common surgical procedures and assist in minor surgical procedures; Observe emergency lifesaving surgical procedures.   | DOAP session                             |
| D-5, 23 | SU14.3 Describe the materials and methods used for surgical wound closure and anastomosis (sutures, knots and needles)   | Small group discussion                   |
| D-6     | SU18.3 Describe and demonstrate the clinical examination of surgical patient including swelling and order relevant investigation for diagnosis. Describe and discuss appropriate treatment plan. | Bedside teaching, small group discussion |
| D-7     | SU18.3 Describe and demonstrate the clinical examination of surgical patient including swelling and order relevant investigation for diagnosis. Describe and discuss appropriate treatment plan. | Bedside teaching, small group discussion |
| D-8     | SU18.3 Describe and demonstrate the clinical examination of surgical patient including swelling and order relevant investigation for diagnosis. Describe and discuss appropriate treatment plan. | Bedside teaching, small group discussion |
| D-9     | SU22.3 Demonstrate and document the correct clinical examination of thyroid swellings and discuss the differential diagnosis and their management  | Bedside teaching, small group discussion |
| D-10    | SU25.5 Demonstrate the correct technique to palpate the breast for breast swelling in a mannequin or equivalent  | Bedside teaching, small group discussion |
| D-11    | SU25.5 Demonstrate the correct technique to palpate the breast for breast swelling in a mannequin or equivalent  | Bedside teaching, small group discussion |
| D-12    | SU28.2 Demonstrate the correct technique to examine the patient with hernia and identify different types of hernias.   | Bedside teaching, small group discussion |
| D-13    | SU28.2 Demonstrate the correct technique to examine the patient with hernia and identify different types of hernias.   | Bedside teaching, small group discussion |
| D-14    | SU18.3 Describe and demonstrate the clinical examination of surgical patient including swelling and order relevant investigation for diagnosis. Describe and discuss appropriate treatment plan. | Bedside teaching, small group discussion |
| D-15    | SU18.3 Describe and demonstrate the clinical examination of surgical patient including swelling and order relevant investigation for diagnosis. Describe and discuss appropriate treatment plan. | Bedside teaching, small group discussion |
| D-16    | SU18.3 Describe and demonstrate the clinical examination of surgical patient including swelling and order relevant investigation for diagnosis. Describe and discuss appropriate treatment plan. | Bedside teaching, Small group discussion |
| D-17    | SU28.18 Describe and demonstrate clinical examination of abdomen. Order relevant investigations. Describe and discuss appropriate treatment plan   | Bedside teaching, Small group discussion |

|      |   |  |
|------|---|--|
| D-18 | -SU28.18 Describe and demonstrate clinical examination of abdomen. Order relevant investigations. Describe and discuss appropriate treatment plan<br>Surgical history and Case taking | Bedside teaching, Small group discussion |
| D-24 | End of Posting Clinical Assessment (EOP)  |  |

**ORTHOPAEDICS:** Total duration of posting: 2 weeks; Working Days: 12 (Mon to Saturday), Working hours: 36 (3 hr/day)

| DAY | COMPETENCY  | TEACHING LEARNING METHOD               |
|-----|---|--|
| 1   | OR 1.1 Describe and discuss the principles of pre-hospital care and casualty management of a trauma victim including principles of triage<br>PM 5.3 Demonstrate the correct use of crutches in ambulation and postures to correct contractures and deformities<br>PM 5.4 Identify the correct prosthesis for common amputations | Small group discussion                 |
| 2   | OR 1.6 Participate as a member in the team for closed reduction of shoulder dislocation / hip dislocation / knee dislocation<br>PM 7.2 Describe and demonstrate process of transfer, application of collar restraints while maintaining airway and prevention of secondary injury in a mannequin/model                          | Simulation, DOAP session               |
| 3   | OR 2.1 Describe and discuss the mechanism of Injury, clinical features, investigations and plan management of fracture of clavicle<br>OR 2.2 Describe and discuss the mechanism of Injury, clinical features, investigations and plan management of fractures of proximal humerus   | Small group discussion, bedside clinic |
| 4   | OR 2.4 Describe and discuss the mechanism of injury, clinical features, investigations and principles of management of fracture of shaft of humerus and intercondylar fracture humerus with emphasis on neurovascular deficit   | Bedside clinic, small group discussion |
| 5   | OR 2.7 Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of pelvic injuries with emphasis on hemodynamic instability  | Bedside clinic, small group discussion |
| 6   | OR 2.10 Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of fractures of proximal femur<br>PM 7.3 Perform and demonstrate a correct neurological examination in a patient with spinal injury and determine the neurologic level of injury        | Bedside clinic, small group discussion |
| 7   | OR 2.14 Describe and discuss the aetiopathogenesis, clinical features, Investigation and principles of management of ankle fractures<br>PM 7.3 Perform and demonstrate a correct neurological examination in a patient with spinal injury and determine the neurologic level of injury  | Bedside clinic, small group discussion |
| 8   | OR 2.15 Plan and interpret the investigations to diagnose complications of fractures like malunion, non-union, infection, compartmental syndrome<br>PM 7.3 Perform and demonstrate a correct neurological examination in a patient with spinal injury and determine the neurologic level of injury                              | Bedside clinic, small group discussion |
| 9   | OR 2.15 Plan and interpret the investigations to diagnose complications of fractures like malunion, non-union, infection, compartmental syndrome<br>Hip and Knee examination  | Bedside clinic, small group discussion |
| 10  | OR 2.15 Plan and interpret the investigations to diagnose complications of fractures like malunion, non-union, infection, compartmental   | Bedside clinic, small group            |

|    |  |  |
|----|--|--|
|    | syndrome   | discussion                             |
| 11 | OR 2.15 Plan and interpret the investigations to diagnose complications of fractures like malunion, non-union, infection, compartmental syndrome<br>OR 14.1 Demonstrate the ability to counsel patients regarding prognosis in patients with various ORTHOpedic illnesses like<br>a. fractures with disabilities<br>b. fractures that require prolonged bed stay c. bone tumours<br>d. congenital disabilities<br>OR 14.2 Demonstrate the ability to counsel patients to obtain consent for various ORTHOpedic procedures like limb amputation, permanent fixations etc.<br>OR 14.3 Demonstrate the ability to convince the patient for referral to a higher centre in various ORTHOpedic illnesses. | Bedside clinic, small group discussion |
| 12 | End of posting (EOP) clinical assessment   |  |

**PAEDIATRICS:** Total duration of posting: 4 weeks; Working Days: 24 (Mon to Saturday), Working hours: 72 (3 hr/day)

| DAY          | COMPETENCY   | TEACHING LEARNING METHOD |
|--------------|--|--------------------------|
| 1,9,17,18,19 | PE 28.20 Counsel the child with asthma on the correct use of inhalers in a simulated environment | Bedside clinic           |
| 2,10,20      | PE 29.10 Elicit, document and present the history related to Hematology                          | Small group discussion   |
| 3,11,21      | PE 30.2 Distinguish bacterial, viral and tuberculous meningitis                                  | Bedside clinic           |
| 4,12,22      | PE 30.22 Interpret the reports of EEG, CT, MRI   | Small group discussion   |
| 5,13,23      | PE 31.10 Enumerate the indications for PFT   | Bedside clinic           |
| 6,14         | PE 32.10 Counsel parents regarding 1. Present child<br>2. Risk in the next pregnancy             | Small group discussion   |
| 7,15         | PE 32.12 Identify the clinical features of Klinefelter Syndrome                                  | Bedside clinic           |
| 8,16         | PE 34.7 Interpret a Mantoux test   | Small group discussion   |
| 24           | End of posting (EOP) clinical assessment   |                          |

**COMMUNITY MEDICINE:** Total duration of posting: 5 weeks; Working Days: 30 (Mon to Saturday), Working hours: 90 (3 hr/day)

| DAY  | COMPETENCY  | TEACHING LEARNING METHOD |
|------|---|--------------------------|
| D-1  | Cm6.1 formulate a research question for a study   | SGD, DOAP                |
| D-2  | Cm14.1 define and classify hospital waste<br>Cm14.2 describe various methods for treatment of hospital waste; Visit to BMW Storage Plant  | SGD                      |
| D-3  | Cm8.3 enumerate and describe disease specific national health programs including their prevention and treatment of a case: visit to dots centre   | SGD                      |
| D-4  | Cm8.1 describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases: visit to rabies clinic                         | SGD                      |
| D-5  | Cm10.6 enumerate and describe various family planning methods, their advantages and shortcomings: visit to family planning clinic   | SGD                      |
| D-6  | Cm7.5 enumerate, define, describe and discuss epidemiological study designs   | SGD                      |
| D-7  | Cm6.2 describe and discuss the principles and demonstrate the methods of collection, classification, analysis, interpretation and presentation of statistical data  | SGD                      |
| D-8  | Cm6.4 enumerate, discuss and demonstrate common sampling techniques, simple statistical methods, frequency distribution, measures of central tendency and dispersion  | SGD                      |
| D-9  | Cm8.1 describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases: visit to malaria clinic                        | SGD                      |
| D-10 | Cm8.5 describe and discuss the principles of planning, implementing and evaluating control measures for disease at community level bearing in mind the public health importance of the disease: vaccines and cold chain | SGD, DOAP                |
| D-11 | Cm7.4 define, calculate and interpret morbidity and mortality indicators based on given set of data   | SGD                      |
| D-12 | Cm9.2 define, calculate and interpret demographic indices including birth rate, death rate, fertility rates   | SGD                      |
| D-13 | Cm17.5 describe healthcare delivery in India: visit to uhtc   | SGD                      |
| D-14 | Cm3.4 describe the concept of solid waste, human excreta and sewage disposal: visit to sewage treatment plant   | SGD                      |
| D-15 | Mid- posting clinical assessment  |                          |
| D-16 | Cm17.5 describe healthcare delivery in India: visit to rhtc   | SGD                      |
| D-17 | Cm7.8 describe the principles of association, causation and biases in epidemiological studies   | SGD                      |
| D-18 | Cm7.4 define, calculate and interpret morbidity and mortality indicators based on given set of data   | SGD                      |
| D-19 | Cm7.3 enumerate, describe and discuss the sources of epidemiological data: visit to mrd   | SGD                      |
| D-20 | Cm5.8 describe and discuss the importance and methods of food fortification and effects of additives and adulteration: visit to mother dairy  | SGD                      |
| D-21 | Cm1.6 describe and discuss the concepts, the principles of health promotion and education, jec and behavioral change communication  | SGD                      |
| D-22 | Cm8.3 enumerate and describe disease specific national health programs including their prevention and treatment of a case: visit to dots centre   | SGD                      |
| D-23 | Cm14.1 define and classify hospital waste<br>Cm14.2 describe various methods for treatment of hospital waste; Visit to BMW Storage Plant  | SGD                      |
| D-24 | Cm9.2 define, calculate and interpret demographic indices including birth rate, death rate, fertility rates   | SGD                      |
| D-25 | Cm17.5 describe healthcare delivery in India: visit to uhtc   | SGD                      |

|      |  |           |
|------|--|-----------|
| D-26 | Cm3.2 describe concepts of safe and wholesome water, sanitary sources of water, water purification processes, water quality standards, concepts of water conservation and rainwater harvesting: visit to water treatment plant | SGD       |
| D-27 | Cm17.5 describe healthcare delivery in India: visit to rhtc  | SGD       |
| D-28 | Cm8.1 describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases: visit to malaria clinic                               | SGD       |
| D-29 | Cm8.5 describe and discuss the principles of planning, implementing and evaluating control measures for disease at community level bearing in mind the public health importance of the disease: vaccines and cold chain        | SGD, DOAP |
| D-30 | End of posting (eop) clinical assessment   |           |

**DERMATOLOGY:** Total duration of posting: 2 weeks; Working Days: 12 (Mon to Saturday), Working hours: 36 (3 hr/day)

| DAY        | COMPETENCY   | TEACHING LEARNING METHOD             |
|------------|--|--------------------------------------|
| D-1,<br>9  | Bacterial Infections<br>DR15.1 Identify and distinguish between folliculitis, furuncle, carbuncle, Impetigo and Staphylococcal scalded skin syndrome<br>DR15.2 Identify Staphylococcus on gram stain   | Bedside clinic<br>Bedside clinic     |
| D-2,<br>10 | Fungal Infections<br>DR.7.1 Clinical and diagnostic features of dermatophytes in adults and children<br>DR.7.2 Identify candida species in fungal scraping and KOH   | Bedside clinic<br>DOAP               |
| D-3,<br>11 | Viral Infections<br>DR.8.2- Identify and distinguish herpes simplex and labialis from other skin lesions<br>DR.8.3- Identify and distinguish herpes zoster and varicella from other skin lesions<br>DR.8.4- Identify and distinguish viral warts from other skin lesions.<br>DR.8.5- Identify and distinguish molluscum contagiosum from other skin lesions<br>DR.8.- Enumerate the indications, describe the procedure and perform tzanck smear | DOAP<br>DOAP<br>DOAP<br>DOAP<br>DOAP |
| D-4        | Psoriasisiform Disorders<br>DR.3.1: Identify and distinguish psoriatic lesions from the other psoriasisiform lesions.<br>DR.3.2: Demonstrate grattage test.  | Bedside clinic<br>Bedside clinic     |
| D-5        | Lichenoid Disorders<br>DR.4.1: Identify and distinguish Lichen planus from other lichenoid skin lesions  | Bedside clinic                       |
| D-6        | Infestations<br>DR.5.2 Identify and distinguish scabies from other skin lesions<br>DR.6.2 Identify and distinguish pediculosis from other skin lesion, Clinical features of pediculosis in adults and children.  | Bedside clinic<br>Bedside clinic     |
| D-7        | Leprosy<br>DR.9.2 Demonstrate (and classify based on) the clinical features of leprosy including nerve examination   | Bedside clinic                       |

|      |   |  |
|------|---|--|
|      | DR.9.3 Enumerate the indications and observe the performance of slit skin smear.  |  |
| D-8  | Sexually transmitted disease<br>DR.10.1 Identify and classify syphilis based on the presentation and clinical manifestation<br>DR.10.2 Identify spirochete in a dark ground microscopy<br>DR.10.5 Counsel in a non-judgemental and empathetic manner patients on prevention of STD.<br>DR.11.2 Clinical features, complications, and opportunistic infections of HIV. | Bedside clinic<br>DOAP<br>DOAP<br>Bedside clinic |
| D-12 | End Posting   |  |

**PSYCHIATRY:** Total duration of posting: 2 weeks; Working Days: 12(Mon to Saturday), Working hours: 36 (3 hr/day)

| DAY  | COMPETENCY  | TEACHING<br>LEARNING METHOD |
|------|---|-----------------------------|
| D-1  | PS1.1 Establish rapport and empathy with patients   | DOAP session                |
| D-2  | PS1.2 Define stress and describe its components and causes  | Small group discussion      |
| D-3  | PS2.2 Describe the role of time management, study skills, balanced diet and sleep wake habits in stress avoidance | Small group discussion      |
| D-4  | PS2.5 Define and distinguish normality and abnormality  | Lecture                     |
| D-5  | PS3.1 Describe the growth of psychiatry as a medical specialty, its history and contribution to society           | Lecture                     |
| D-6  | PS3.2 Enumerate, describe and discuss important signs & symptoms of common mental disorders                       | Small group discussion      |
| D-7  | PS3.3 Elicit, present and document a history in patients presenting with a mental disorder                        | Bedside Clinic              |
| D-8  | PS3.5 Perform, demonstrate and document a mental state examination (MSE)  | Bedside Clinic              |
| D-9  | PS4.2 Elicit, describe and document clinical features of alcohol and substance use disorder                       | Bedside Clinic              |
| D-10 | PS5.2 Enumerate, elicit, describe and document clinical features,   | Bedside Clinic              |
| D-11 | Demonstrate family education in a patient with schizophrenia in a simulated environment                           | Bedside Clinic              |
| D-12 | End of posting (EOP) clinical assessment  |                             |
